ADDITIONAL RECYCLABLE MATERIALS WILL NOW BE ACCEPTED AT KENILWORTH PUBLIC WORKS

Union County, NJ – **September 14, 2023** — The Union County Bureau of Recycling and Planning would like residents to know that they can now recycle additional materials at the Kenilworth Recycling Center, which is located at 401 Sheridan Avenue in Kenilworth. The Borough of Kenilworth is strengthening its recycling efforts by allowing County residents to drop off additional recyclable materials off at their recycling yard. Previously, this facility participated in the County oil and electronics recycling program. However, residents will now be able to take oil filters, block Styrofoam, plastic film and fluorescent bulbs to the location at 401 Sheridan Avenue in addition to these other materials. This will make the lives of Union County residents in the Kenilworth area much easier and will allow them more opportunity to recycle these generally “hard to recycle” items.

If you have any additional questions or would like more information regarding this and other recycling events and services in Union County, please call 908-654-9890 or visit <https://ucnj.org/recycling/>
